Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
License No. DPR-64  
**Monthly Operating Report for March 2000**

Dear Sir:

The attached monthly operating report, for the month of March 2000, is hereby submitted in accordance with Indian Point 3 Nuclear Power Plant Technical Specification 6.9.1.4. This report includes corrections for two minor errors in the operating data report for the cumulative number of hours the reactor was critical (Item 12, page 1 of Attachment 1). It was identified that the operating data report for December 1998 for the cumulative number of hours the reactor was critical should have included one (1) additional hour. The operating data reports for January and February 2000 were revised to include the additional hour. Also, the operating data report for January 2000 contained a typo for the cumulative number of hours the reactor was critical which was carried over into the February report. The corrected pages for each applicable month discussed are included as an Attachment.

The Authority is making no commitments in this letter.

Very truly yours,

Robert J. Barrett  
Site Executive Officer
