South Miami, Florida 33243-0741

SUBJECT: TURKEY POINT UNITS 3 AND 4 - HOMESTEAD AIR FORCE BASE
PROPERTY DISPOSAL

Dear Sierra Club Representatives:

This acknowledges receipt of your letter dated February 24, 2000, as supplemented by letter dated March 27, 2000, from Mark Oncavage, addressed to the U.S. Nuclear Regulatory Commission (NRC) Document Control Desk. Your letters transmitted comments on the above subject and requested that the NRC staff address these comments in its assessment regarding the proposed commercial operations at the Homestead Air Force Base, and the potential risk to Turkey Point Units 3 and 4.

As you are aware, at the request of the U.S. Air Force, the NRC staff is reviewing Florida Power and Light Company's submittal dated November 17, 1999, regarding the same subject. The NRC staff plans to complete this review and issue an assessment on this subject by the latter part of May 2000. We will consider addressing your comments in our assessment. However, if some comments are not addressed, they will be in follow-up correspondence.

I have assigned Kahtan Jabbour, Project Manager for the Turkey Point Plant, to be your contact for the resolution of your concerns. Mr. Jabbour may be contacted at 301-415-1496.

Sincerely,

/RA/

Richard P. Correia, Chief, Section 2
Project Directorate II
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-250 and 50-251
