MEMORANDUM TO: James M. Taylor
FROM: John C. Hoyle, Acting Secretary
SUBJECT: COMSECY-94-025 - Final Safety Evaluation
Report (FSER) For The Advanced Boiling Water
Reactor (ABWR) Design

The Commission (with all Commissioners agreeing) has approved the staff's recommendation to publish the FSER and the FDA for the GE Advanced Boiling Water Reactor after resolution of any actions required by Commission decisions on COMSECY-94-024 and SECY-94-084. In addition, the FDA should not be limited to a term of 5 years; it should be updated, as needed, to conform to any changes resulting from the certification rulemaking and be in effect for the duration of the certification of the ABWR.
