DOCKET NUMBER
PROPOSED RULE **PR** 20
(64FR35090)

Dear Chairman Meserve:

I am writing to you regarding the subsequent recycling of some 6,000 tons of radioactive nickel for the decommissioning of the Oak Ridge uranium enrichment plant. I demand that NO contaminated materials ever enter the market place. We all know that radioactive materials have a direct relationship to causing cancer and we do not need any contaminated materials in the market place putting Americans at risk.

Sincerely,

Mike Kunkel
