Ms. Betty Wright  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Ms. Wright:

The purpose of this letter is to request that the Nuclear Regulatory Commission (NRC) amend export license XS0U8767 to include Transport Logistics International (TLI) as a party for transport purposes. The placement of TLI on the export license will help facilitate the handling of the shipping campaign through the export and customs clearance procedures. TLI's address is:

Transport Logistics International  
4000 Blackburn Lane, Suite 250  
Burtonsville, Maryland 20866  
Telephone: 301-421-4324

TLI, which recently was selected by Techsnabexport to manage the transport of the feed component from the United States to Russia, has considerable experience in export controls and holds other NRC export licenses for radioactive materials. Questions about TLI's experience in this regard may be addressed to Mr. Rod Fisk or Ms. Melissa Mann at TLI.

We appreciate your consideration of our request.

Sincerely,

Robert M. George  
Executive Director

Office of Nuclear Energy,
