No. 97-161

FOR IMMEDIATE RELEASE
(Tuesday, October 2, 1997)

NRC CHANGES DATES FOR NOVEMBER WORKSHOP ON
RISK-INFORMED PIPING INSPECTION

Dates have been reset for the NRC workshop to obtain public comment on two draft documents concerning an alternative method for periodically inspecting piping in operating nuclear power plants. The workshop will be held November 20-21. It was originally set to start a day earlier.

Workshop sessions will remain the same, beginning at 8 a.m. daily at the Bethesda Marriott Hotel, 5151 Pooks Hill Road, Bethesda, Maryland.

Those who intend to participate in the workshop are asked to give advance notification in writing to the workshop contractor, Kesselman-Jones, 8912 James Ave. NE, Albuquerque, New Mexico 87111. Kesselman-Jones also may be contacted by phone (505/271-0003); by fax (505/271-0482); or by electronic mail (kessjones@aol.com).
