SUBJECT: REQUALIFICATION PROGRAM INSPECTION - LIMERICK

Dear Mr. Rainey:

In a telephone conversation on April 28, 2000, Mr. Carl Sisco, Inspector/Examiner, and Mr. Craig Fritz, Principle Training Instructor, made arrangements for the NRC to inspect the LSRO operator requalification program at Limerick Station. The inspection is planned for the week of May 22, 2000, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the written examinations and operating tests scheduled for the week of the inspection to the NRC by May 15, 2000. Mr. Fritz has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.

The public reporting burden for this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at BJS1@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0101), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Mr. G. Rainey
