YANKEE ROWE PREHEARING CONFERENCE POSTPONED

An Atomic Safety and Licensing Board has rescheduled to February 21 a prehearing conference in a licensing proceeding concerning the decommissioning of Yankee Atomic Electric Company's nuclear power station near Rowe, Massachusetts.

The conference was postponed because of the unavailability of counsel for the licensee.

The conference, which had been scheduled for February 1, will begin at 9:30 a.m. in Room 3B45, Third Floor, in the NRC's Two White Flint North Building at 11545 Rockville Pike, Rockville, Maryland. To the extent necessary, the conference will continue the next day at the same location.
