Nuclear Regulatory Commission  
One White Flint  
Washington, DC 20555  
Attention: Chris Grimes**

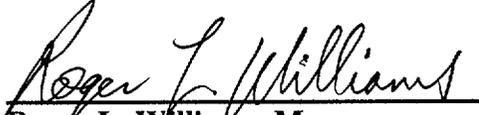

**Dear Mr. Grimes:**

**On behalf of The City of Hazlehurst, we would like to express our support of Plant Hatch/Southern Nuclear in their effort to be re-licensed. This will enable them to continue to produce clean, affordable nuclear generated electricity for our community and the surrounding areas for the next (20) years.**

**We feel that Plant Hatch has been a positive influence on the economic growth of our community, simply because of the job availability it has created and maintained for many years.**

**In short, The City of Hazlehurst totally supports the (NRC) decision in the re-licensing of Plant Hatch.**

**Sincerely,**
