

MEMORANDUM TO: Robert Spence
Reactor Systems Engineer
Division of Systems Analysis and Regulatory Effectiveness
Office of Nuclear Regulatory Research

May 9, 2000

FROM: William D. Travers */RA/*
Executive Director for Operations

Subject: APPOINTMENT TO AD HOC REVIEW PANEL FOR THE "DIFFERING
PROFESSIONAL OPINION ON STEAM GENERATOR TUBE
INTEGRITY ISSUES"

By this memorandum, I appoint you to the ad hoc review panel for the "Differing Professional Opinion on Steam Generator Integrity Issues." Mr. James Wiggins, will continue to serve as Chairman of the panel and you will serve as a panel member. The ad hoc panel should conduct its review in accordance with the guidelines in Management Directive 10.159 "Differing Professional Views or Opinions."

This DPO deals with complex technical issues. It was submitted as a differing professional view on December 23, 1991. Since that time, an extensive record of documentation has developed which includes presentations to the Advisory Committee on Reactor Safeguards (ACRS) and Committee for the Review of Generic Requirements (CRGR). I cannot predict how long this task will take but it will be your highest priority until the job has been completed. After completing the review the panel shall issue a report with its recommendations.
