Seabrook Station
NRC Regulatory Information Summary 2000-04
Operating Reactor Licensing Action Estimates
Response to a Request for Information

NRC Regulatory Issue summary 2000-04 requested a numerical estimate of the licensing actions expected to be submitted in Fiscal Years (FY) 2000 and 2001. We estimate the submittal of twenty-seven additional licensing actions in FY 2000 and twenty licensing actions in FY 2001 for Seabrook Station. Approximately twenty of the twenty-seven licensing actions for FY 2000 consist of Relief Requests associated with the Inservice Testing Program. At this time, our schedule does not include activities that meet the Regulatory Issue Summary description of a complex review.

Should you have any questions, please contact Mr. James M. Peschel, Manager – Regulatory Programs at (603) 773-7194.

Very truly yours,

NORTH ATLANTIC ENERGY SERVICE CORP.

Ted C. Feigenbaum
Executive Vice President and
Chief Nuclear Officer
