NRC Regulatory Issue Summary requested a simple numerical estimate of the licensing actions expected to be submitted in the remainder of Fiscal Year (FY) 2000 and an estimate of the licensing actions expected to be submitted in FY 2001. Virgil C. Summer Nuclear Station estimates the submittal of thirteen (13) licensing actions in the remainder of FY 2000 and eight (8) licensing actions in FY 2001. Two (2) licensing actions are anticipated to meet the Issue Summary's definition of a complex review. They are Deviations for Kaowool (30 deviations in one submittal in 2000) and Spent Fuel Pool Rerack (2001).

If you have any questions, please contact Mr. Arnie Cribb, Licensing Engineer, at (803) 345-4346.
