Subject: Millstone Nuclear Power Station, Unit No. 1, Docket No. 50-245
Response to Regulatory Issue Summary 2000-04, "Operating Reactor Licensing
Action Estimates"

Regulatory Issue Summary 2000-04, "Operating Reactor Licensing Action Estimates" requests licensees to provide numerical estimates of the licensing actions expected to be submitted in Fiscal Years 2000 and 2001. For submittals expected to generate complex reviews, the letter requests licensees to provide short titles as well.

Millstone Unit 1 expects to submit two license amendment requests in the remainder of Fiscal Year 2000. If a determination is made to construct an Independent Spent Fuel Storage Installation, that application would be the only anticipated licensing action in Fiscal Year 2001.

If you have any questions concerning this submittal, please contact Mr. Bryan S. Ford at (860) 437-5895.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
