RE: St. Lucie Units 1 and 2
Docket Nos. 50-335 and 50-389
Regulatory Information Summary 2000-04

NRC Regulatory Information Summary (RIS) 2000-04, *Operating Reactor Licensing Action Estimates*, asked licensees to provide an estimate of the number of licensing actions expected to be submitted in the remainder of fiscal year (FY) 2000 and for FY 2001. To adequately capture the larger resource impact of certain licensing reviews, licensees were asked to identify by brief title those licensing actions that are expected to generate complex reviews, such as power uprate requests, license renewal requests, and dry cask storage applications.

Lists of licensing actions for St. Lucie Units 1 and 2 planned during the remainder of FY 2000 and for FY 2001 are attached. Pursuant to your guidance, licensing actions affecting both units are counted as two separate licensing actions. Please contact us if there are any questions about this submittal.

Very truly yours,

A handwritten signature in black ink that reads 'Rajiv S. Kundalkar'.
