SUBJECT: INDIAN POINT NUCLEAR GENERATING UNIT NO. 2 - CORRECTION TO
AMENDMENT NO. 207 (TAC NO. MA4654)

Dear Mr. Blind:

On February 29, 2000, the Commission issued Amendment No. 207 to Facility Operating License No. DPR-26 for Indian Point Nuclear Generating Unit No. 2. The amendment revised Technical Specification (TS) Section 3.7.D.1 to correct an editorial error, TS 6.2.2 to change the senior reactor operator license requirement for the Operations Manager, and TS 6.3.1 to modify the qualification requirement for the Operations Manager. When the change was made to TS 6.3.1, which appears on TS page 6-3, the changes from the previously issued amendment were not incorporated. Upon issuance of Amendment No. 207, the new page 6-3 correctly identified the approved changes, however, the changes from Amendment No. 206, dated February 25, 2000, were not incorporated. By letter dated March 31, 2000, you requested that the Commission, in accordance with SECY-96-238, issue the revised page 6-3, which incorporates all the staff approved changes. Hence the staff has enclosed revised page 6-3.

We regret any inconvenience this oversight may have caused. If you have any questions, please call me on (301) 415-1421.

Sincerely,

/RA/
