Mr. William Paul Goranson, Manager
Radiation Safety, Licensing and
Regulatory Compliance
Quivira Mining Company
6305 Waterford Blvd., Suite 325
Oklahoma City, OK 73118

SUBJECT: AMENDMENT NO. 45 - EXTENSION OF SITE RECLAMATION MILESTONES
IN LICENSE SUA-1473 FOR THE QUIVIRA MINING COMPANY'S AMBROSIA
LAKE FACILITY

Dear Mr. Goranson:

The U.S. Nuclear Regulatory Commission (NRC) staff, based on its review of your request by letter dated December 30, 1999, hereby amends Condition 40B.(1) Source Material License Number SUA-1473 for the Quivira Mining Company's Ambrosia Lake facility. The amendment extends the milestones for completion of the erosion protection placement to December 31, 2001.

The enclosed Technical Evaluation Report contains the staff's assessment of the licensing action. The license is being reissued to incorporate the requested changes, and is enclosed. If you have any question regarding this letter or the enclosures, please contact the NRC Project Manager, Jill Caverly, at (310) 415-6699.

Sincerely,

/RA/

Philip Ting, Chief
Fuel Cycle Licensing Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards
