 2. PLA-5172, R. G. Byram to USNRC, "Status of Fire Protection Corrective Actions," dated April 28, 2000.

The purpose of this letter is to provide updated information regarding our Application filed pursuant to 10 CFR 50.80 requesting consent to the transfer of facility operating licenses Nos. NPF-14 and NPF-22 for the Susquehanna Steam Electric Station (Susquehanna SES) Units 1 and 2 (See References 1 and 2). Similar updates were provided on February 7 and March 24, 2000.

Confirming our previous conversations, on April 28, 2000, two new directors were elected to the PPL Corporation board: John W. Conway and W. Keith Smith. They replace Norman Robertson and Marilyn Ware, who left the Board effective April 28, 2000.

There has been one additional change in the officers of PPL Electric Utilities Corporation. Michael E. Bray was named senior vice president effective April 17, 2000.

This information is being submitted in support of our 10 CFR 50.80 Application. It alters neither the physical amendments to the operating licenses nor the No Significant Hazards Considerations provided with the Application.
