Re CN/NRC mtg. of 05/23-24/00

Dear Mr. Greeves:

It appears our respective staffs have finally been able to coordinate our schedules and arrange for a meeting between our two organizations (05/23-24/00). Attached you will find a draft agenda which includes the topics we would like to discuss. Please feel free to make any additions you deem warranted. I would like to start the mtg. around 3:00 PM (depending upon your flight schedule). Additionally, it may be advantageous to keep an hour or so free the following AM to wrap up any unresolved issues. This should afford you the opportunity to catch an early flight back to the DC area. I look forward to meeting you and your staff and beginning our dialogue on these issues. If you have any questions or require further information, please contact Pat Gwin at 918/456-0671 ext. 2704. Thank you.

Sincerely,

Julian Fite
General Counsel

TOPICS OF DISCUSSION

Cherokee Nation/U.S. Nuclear Regulatory Commission 05/23-24/00 mtg.
