

INFORMATION FOR DOE REQUESTS

GENERAL

Region/State Point-of-Contact: **Jay L. Henson** Phone: **(404)562-4738**

Possessor's Name: **Waste Management Co./Middle Peninsula Landfill & Recycle Fac.**

Contact Name: **Greg Enterline** Phone: **(804)693-5109**

Street Address: **3714 Waste Management Way** Fax #: **(804)693-6245**

City: **Glenns** State: **VA** Zip: **23149**

Exact location of material (address, if different than above, and location within facility): **Same as above**

Current security of the material: **Outdoors - locked within chain link enclosure**

RADIOACTIVE MATERIAL DESCRIPTION

Form of material: **Am-241 oxide/Beryllium pellets (special form)**

Nuclide: **Am-241**

Activity Level: **40 mCi**

Assay Date: / / (**Unknown**)

DEVICE CONTAINING A SEALED SOURCE

Device Model Number: **R-50(currently referred to as XL-100)** Serial Number: **8064**

Date of manufacture or age of device: (**Unknown**)

Weight of device (including any DU shielding): (**Unknown**)

Physical dimensions of device: **13" x10 5/8" x 6.5"**

Device condition: Intact **X** Damaged Contaminated

(NOTE: Electronics loose; handle missing, but housing & source intact.)

INFORMATION FOR DOE REQUESTS

SEALED SOURCE

Is this sealed source associated with the device above? Yes ___ No

Sealed Source Manufacturer: **Amersham**

Sealed Source Model Number: **MN.PE5 (formerly AMNQ.1954)** Serial Number: **(Unknown)**

Physical Dimensions of source/source holder: **Cylinder 0.6" high w/0.3" diameter**

Date of manufacture or age of source: **(Unknown)**

Source condition: Intact Damaged ___ Leaking ___

(NOTE: Commonwealth of Virginia Bureau of Radiological Health leak tested source on May 5, 2000)

Additional information: **Sealed Source & Device Registration #'s NR-587-D-102-S (device);
IL-136-S-240-S (source)**
