

May 17, 2000

Timothy E. Hurst, P.E.  
Chairman ISA SP 67.04  
Hurst Technologies, Corp.  
P.O. Box 1718  
Angleton, Texas 77516

Dear Mr. Hurst:

This is in response to your letter to Samuel J. Collins, Director, Office of Nuclear Reactor Regulation (NRR) dated April 25, 2000, requesting continued United States Nuclear Regulatory Commission (USNRC) participation in the ISA standards subcommittee SP 67.04, and a meeting with pertinent USNRC representatives and various industry sub-committee members to discuss both setpoint issues and how the USNRC and the ISA can improve our working relationship.

The USNRC will have two staff members participating in the upcoming ISA POWID/EPRI Instrumentation and Controls Conference scheduled for the week of June 4, 2000, in San Antonio, Texas. One of these staff members is Evangelos Marinos, Chief of the Instrumentation and Controls Section within the Office of Nuclear Reactor Regulation. Mr. Marinos and his staff will be prepared to meet with you and the pertinent industry subcommittee members during the week of this conference to discuss setpoint issues and ways in which we can maintain and improve our working relationship. The USNRC is committed to continue support of the ISA SP 67.04 effort as we have in the past.

I would like to commend you and the members of the SP 67.04 subcommittee for the time and effort expended to improve nuclear standards particularly in light of the ever increasing budget and personnel constraints. If I can be of further assistance to you, please do not hesitate to contact me.

Sincerely,

Jack Strosnider, Director **/RA/**  
Division of Engineering  
Office of Nuclear Reactor Regulation
