FREEDOM OF INFORMATION ACT REQUEST

Dear Ms. Reed:

Pursuant to the Freedom of Information Act, 5 U.S.C. 522, as amended and 10 C.F.R. 9.8 of the Commission's regulations, Public Citizen's Critical Mass Energy Project requests that NRC provide us with copies of the following:

1. all allegation review board minutes relating to Byron Station for 1997 through the present.
2. the results of all OI inspections relating to Byron Station for 1997 through the present.

Pursuant to and in compliance with 10 C.F.R. 9.41 of the Commission's regulations governing requests for fee waivers, Public Citizen's Critical Mass Energy Project provides the following information.

Public Citizen's Critical Mass Energy Project seeks the requested information solely to contribute to and help shape the public debate concerning NRC's role in the regulation of nuclear power plants.

Public Citizen's Critical Mass Energy Project is a nationally known non-profit public interest organization founded in 1974. We will use these documents in the preparation of Public Citizen's report on NRC's handling of whistleblower's concerns. We plan to broadly disseminate the information contained in this analysis to the press and the general public.

Our past publications have attracted attention in the local, national and trade media. Thousands of copies of the reports have been sold or distributed to members of the public, industry, and citizen groups. Since "disclosure of the information is in the public interest because it is likely to contribute significantly to the public understanding of the operation or activities of the government and is not primarily in the commercial interest of the requester" (5 U.S.C. 552 (a)(4)(A))
