Subject: Crystal River Unit 3 - Estimated Licensing Actions for Fiscal Years (FY)  
2000 and 2001

Reference: NRC Regulatory Issue Summary 2000-04, "Operating Reactor Licensing  
Action Estimates"

Dear Sir:

Florida Power Corporation (FPC) hereby voluntarily submits information on licensing actions that are currently planned for NRC Fiscal Years (FY) 2000 and 2001. This submittal is in response to NRC Regulatory Issue Summary 2000-04, dated March 16, 2000.

FPC anticipates that six licensing actions will be submitted during the remainder of FY 2000, and twelve licensing actions will be submitted in FY 2001. FPC does not anticipate submittal of any licensing actions that are expected to generate complex reviews such as power uprates, license renewal requests, or dry cask storage applications during this period.

If you have any questions regarding this submittal, please contact Mr. Sid Powell, Manager, Nuclear Licensing, at (352) 563-4883.

Sincerely,

Thomas H. Taylor  
Director, Nuclear Engineering & Projects
