Decommissioning Plan Part 1
WASHINGTON SMB-1393

GROUP 1
GROUP 2

Dear Mr. Person:

This information is provided as a result of request made during conference calls between the staff and Molycorp to discuss the responses to the last RAI. Molycorp will complete surface radiation surveys beyond the facility fence lines prior to actual decommissioning activities and as part of the final survey to ensure the extent of contamination is defined and that all contamination above the clean up criteria has been removed.

Do not hesitate to contact me if you require any additional information.

Sincerely,

George W. Dawes
Senior Scientist
