Dear Mr. Coyle:

Enclosed is the updated Quarterly Region III Access Authorization Listing (Attachment A) for your information and use. This list provides notification, pursuant to 10 CFR 50, that the Regional Administrator has identified these individuals as likely to inspect Region III facilities. Also enclosed is a separate listing (Attachment B) which contains names of individuals from Headquarters and other Regions who routinely participate in inspections and who assist region based inspectors. The individuals identified on these lists should be granted unescorted access as indicated. The authority to identify these individuals and sign this authorization letter has been delegated in writing to the undersigned.

These lists provide information on security access, radiological access, and training certification. Security access is based on a determined need to perform NRC inspection-related duties together with the successful completion of the specified type of background investigation and trustworthiness determination. Radiological access is based on successful completion of Hazard Communication training which is given concurrently with an NRC-administered comprehensive training course and test.

If you have any questions, please contact B. Ryan Te at (630) 829-9547.

Sincerely,

/RA/

Reginald W. Mitchell, Chief
