SUBJECT: MEETING ANNOUNCEMENT - PREDECISIONAL ENFORCEMENT
CONFERENCE FOR FARLEY UNITS 1 AND 2 - DOCKET NOS. 50-348 AND
50-364

Dear Mr. Morey:

This letter confirms the telephone conversations between Mark Ajluni and myself on May 10 and May 18, 2000, concerning a predecisional enforcement conference which has been scheduled, at your request, for June 1, 2000, beginning at 9:30 a.m. EDST.

The purpose of the meeting is to discuss the apparent violation regarding when Unit 2 was operated in a condition that could have prevented the service water system from performing its intended design function. This was discussed in Inspection Report 50-348, 364/00-02, dated May 1, 2000. The meeting will provide an opportunity for you to provide information to enable the NRC to make an enforcement decision, such as a common understanding of the facts, root causes, corrective actions, significance of the issues and the need for lasting and effective corrective action. In particular, we expect you to address previous opportunities to identify and preclude the discrepancy between operating practices and the applicability of the service water lubrication and cooling booster pumps as attendant equipment. The meeting will be held at the NRC Region II Office, 61 Forsyth Street, S.W., Atlanta, Georgia, in the Main Conference Room, Suite 24T20. This predecisional enforcement conference is OPEN to the public as per "Staff Meetings Open to the Public; Final Policy Statement (September 20, 1994; 59 FR. 48340)."

Should you have any questions concerning this meeting, please contact me at (404) 562-4520.

Sincerely,

/RA/

Stephen J Cahill, Chief
Reactor Projects Branch 2
Division of Reactor Projects
