Dear Sir:

The Armed Forces Radiobiology Research Institute (AFRRI) will conduct an annual emergency drill on Thursday, 20 July 2000. We cordially invite you to observe the drill and attendant functions.

The drill will consist of a simulated incident requiring activation of the Institute's emergency response team (ERT) and possibly evacuation of the Institute. Simulated radiation patients may also require transportation to the hospital. This drill will involve as many outside agencies as possible.

We will conduct a meeting for all controllers and evaluators at 1000 on 13 July 2000 in the AFRRI Conference Room.

If you have any questions, please call the Reactor Facility Director, Mr. Stephen I. Miller, or MAJ Kenneth L. Wisley, at (301) 295-1290. Thank you for your interest in this important exercise.

ROBERT R. ENG
