Mr. Bruce A. Boger, Director  
Division of Inspection Program Management  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Dear Mr. Boger:

*Bruce*

We have received your letter to Mr. Bill Fitzpatrick dated April 5, 2000, regarding Robert Stater's concerns associated with reactor theory test items in the INPO BWR Generic Fundamentals Catalog. We welcome constructive feedback from the industry that we can use to improve the content of our documents. It is evident after reviewing Enclosure 2 to your letter that Mr. Stater spent considerable time and effort developing recommended corrections.

We appreciate this feedback and will consider it as we make additions and revisions to the Generic Fundamentals Catalog. Please contact us if you should receive similar feedback from the industry that we can use to improve our documents.

Sincerely,

Philip N. McCullough  
Director  
Accreditation Division
