Cathy,

This ticket concerns a letter from the Director of FEMA to Chairman Meserve inviting the NRC to participate in National Dam Safety Awareness Day on May 31. The ticket was for appropriate action. In our view, no written response is needed. Dan Rom of my staff, who is the NRC's Deputy Dam Safety Officer, has been in contact with FEMA's Office of National Dam Safety and is planning to attend the May 31st event.

I consider this ticket closed. If you have any questions, let me know.
