Subject: Withdrawal of Technical Specification Violation Report

Reference: The University of Texas Reactor License, Docket 50-602

Dear Sir:

The University of Texas Nuclear Engineering Teaching Laboratory wishes to withdraw the Reportable Occurrence Notification of December 16, 1999. After careful consideration, we have determined the particular conditions of the reactor reflector did not represent a violation of Technical Specification 3.4.2.c, Limits on Experiment Materials. The Chairman of the Reactor Committee agrees with the decision to withdraw the report.

Please contact me if you require additional information at 512-232-5373.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean O'Kelly".
