

May 22, 2000

MEMORANDUM TO: William D. Travers
Executive Director for Operations
/RA/

FROM: John T. Larkins, Executive Director
Advisory Committee on Reactor Safeguards

SUBJECT: DRAFT REGULATORY GUIDE DG-1096, "TRANSIENT AND
ACCIDENT ANALYSIS METHODS" AND STANDARD REVIEW
PLAN, SECTION 15.0.1, "REVIEW OF ANALYTICAL
COMPUTER CODES"

During the 472nd meeting of the Advisory Committee on Reactor Safeguards, May 11-13, 2000, the Committee met with the NRC staff to discuss the subject draft regulatory guide and standard review plan (SRP) Section. Following the NRC staff presentation, the Committee decided that additional review of these documents by the Committee prior to issuing them for public comment is not necessary. The Committee requested that the staff provide any revisions of these documents to the ACRS prior to issuance for public comment.

The Committee plans to review the proposed final version of the draft regulatory guide and SRP Section after reconciliation of public comments. The Committee has no objection to issuing the draft regulatory guide and SRP section for public comment.
