ATTN: PN 6300 - Vermont Yankee Nuclear Plant Sale Case

Dear Ms. Hudson:

NRC is providing the enclosed publicly available information for distribution to the Vermont Public Service Board at the request of Ray Shadis of the Citizen's Awareness Network. The information describes the exclusion area boundary and the owner controlled area for the Vermont Yankee Nuclear Plant. The information was obtained from the NRC's external Internet website, the Final Safety Analysis Report (FSAR) and from a plant drawing that formed the basis for two FSAR figures on this subject. This information may be pertinent to the ongoing VPSB review of the sale of the Vermont Yankee station to AmerGen Energy Company, L.L.C.

If you have any questions in this matter, please contact me at (610) 337-5211.

Sincerely,

/RA/
