Mr. Richard E. Sanderson, Director  
Office of Federal Activities  
Environmental Protection Agency  
Room 2119 M  
401 M Street, NW, Mail Code A-104  
Washington, DC 20460

Dear Mr. Sanderson:

In this era of increasing fiscal constraints, we are clearly striving to eliminate unnecessary copying and mailing expenses. At the same time, we want to ensure that the Environmental Protection Agency (EPA) is receiving the information it needs to discharge its responsibilities for environmental protection. In the past, the NRC has been sending reports to a list of contacts in your regions provided by Ms. Susan Offerdal of your Federal Agency Liaison Division. As of April 1, 2000, the Annual Radioactive Effluent Release Report, the Annual Radiological Environmental Operating Report, and Environmental Assessments can all be accessed electronically. Specifically, the NRC has a fully functional Web site that is easily accessed via the Internet. Thus, in lieu of sending hard copy reports to individuals at the EPA, we believe having ready electronic access is a superb enhancement and, as such, intend to discontinue forwarding hard copies of documents, which are electronically available. These documents can be found on the Internet electronically from the ADAMS Public Library component on the NRC Web site, [www.nrc.gov](http://www.nrc.gov) (the Public Electronic Reading Room). Please inform your staff of this availability.

Sincerely,

/RA/

John A. Zwolinski, Director  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation
