SUBJECT: Surface Contamination Monitor Technology Training Presentation

Dear Mr. Dubiel:

Thank you for your presentation for the Division of Nuclear Materials and Safety Training Seminar on May 15, 2000. You provided a good overview of the Surface Contamination Monitoring System and Survey Information Management System that is being used at several NRC licensed facilities. It was obvious that you were well prepared and your presentation was well received. Your willingness to answer questions for almost another hour was most appreciated.

The information, including photographs of the position sensitive detection system in use at field locations, and examples of data presentation models will be useful to our technical staff and managers. Thank you for assisting us in our regulatory mission.

Sincerely,

Original signed by Francis M. Costello

Frank Costello, Deputy Director
Division of Nuclear Materials Safety
