MEMORANDUM TO: Thomas R. Wolf  
Senior Reactor Operations Engineer  
Operating Experience Risk Analysis Branch  
Division of Risk Analysis, RES

FROM: Jon R. Johnson, Associate Director */RAI/*  
for Inspection and Programs  
Office of Nuclear Reactor Regulation

SUBJECT: LETTER OF APPRECIATION

The purpose of this memorandum is to express my sincere appreciation for your participation in the Organization for Economic Co-operation and Development (OECD) Nuclear Energy Agency (NEA) International Workshop on Inspection Activities that was held from May 14-17, 2000. The workshop, hosted by the NRC and sponsored by the NEA's Working Group on Inspection Practices (WGIP), was attended by senior inspectors and regulators from more than 16 countries. Workshop participants exchanged information and insights on current inspection practices in the area of radiation protection, regulatory inspections required for long shutdowns, and use of objective indicators by the regulatory authority. Commendable practices for each of these three areas were presented at the conclusion of the workshop.

Your presentation of a "poster session" on risk-based performance indicators provided interesting and useful insights to the workshop participants on future NRC developments related to the use of objective indicators. As you know, many international regulatory authorities look to the United States for insight and follow our lead in inspection activities and regulatory programs. Your presentation and associated exchange of information with our fellow regulators will potentially enhance regulatory practices around the world. In addition, your professionalism and courteousness as a host for our fellow regulators will ensure that future workshops remain a valuable tool for the NRC as well as for the international community.

You have my sincere thanks and are to be congratulated for a job well done!

Commendable practices for each of these three areas were presented at the conclusion of the workshop.

As the workshop coordinator, your effort in numerous areas, including interfacing with NEA to select a workshop location, organizing logistical support, developing workshop materials, and coordinating participant registration was outstanding. Your skill and hard work, along with your professionalism and courteousness in interfacing with our fellow regulators, enabled the staff to host this workshop in an exceptionally smooth and effective manner. Your behind the scenes support was invaluable and contributed directly to making this workshop highly successful.

You have my sincere thanks and are to be congratulated for a job well done!
