Please except this email as a Freedom of Information Act request. I am searching for information for one building formerly used by the following companies: Omni-wave Electronics, RCM Electronics, and Cherokee Electronics (all operated at different times). The site address is 22 Blackburn Drive, Gloucester, Massachusetts.

As part of an environmental site assessment, my company is searching for the type of materials used at the site. Also, we have heard that the building was once regulated by the NRC and that the NRC issued a letter that cleared the building for unrestricted reuse. We wish to confirm this.

Please write or call me at (781) 224-6352.

Thank you,

Neil Thurber
