Subject: Industry Working Hour Practices

Mr Beedle:

As discussed in a recent telephone conversation with Sam Collins, I am providing tables that describe the scope and detail of the data that the staff believes would support a better understanding of current industry practices in the area of working hour control. We look forward to answering any questions that you may have about the data tables and collection of the data. I can be contacted at 301-415-1031.

A copy of this e-mail will be made available to the public via ADAMS.
