Industrial Safety Consulting Services
ATTN: Scott J. Winters
Radiation Safety Officer
213 Chelsea Court
Clarksville, Tennessee 37043-4024

**SUBJECT: RECIPROCAL RECOGNITION OF TENNESSEE RADIOACTIVE MATERIALS
LICENSE R-63018-H09**

Dear Mr Winters:

As provided by Title 10, Code of Federal Regulations, Part 150, Paragraph 20, (10 CFR 150.20) Industrial Safety Consulting Services is authorized, in calendar year 2000, to provide within NRC jurisdiction, the services indicated in Tennessee Radioactive Material License R-63018-H09. With the exception of analysis of leakage/contamination samples, all functions are to be performed at the client's location.

You have indicated a single location of work, without indicating specific dates of work. You must notify this office 3 days prior to any work day at this facility. Should you wish to work at any other facility, you must notify this office 3 days in advance by submitting NRC Form 241 (enclosed blank) and payment of the \$200.00 revision fee. Changes to the dates, personnel and/or materials are clarifications which do not require a fee. You may work in NRC jurisdiction for any 180 days of the 366 days in calendar year 2000.

This authorization does not allow you to work within any Agreement State, except on Federal installations which are exclusive federal jurisdiction. Your Tennessee license provides adequate instructions for you to determine the status of a federal facility within an Agreement State.

Should you have any questions, please contact Ms. Diane Heim at (404) 562-4723 or fax at (404) 562-4955. Thank you for your cooperation.

Sincerely,

/RA/

David J. Collins, Health Physicist
 Materials Licensing/Inspection Branch 2
 Division of Nuclear Materials Safety
