

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

June 7, 2000

SECRETARY

COMMISSION VOTING RECORD

DECISION ITEM: SECY-00-0105

TITLE: PROPOSED USE OF THE NRC WEB SITE TO  
SATISFY THE STAFF REQUIREMENT TO MAKE  
ENFORCEMENT ACTIONS AVAILABLE TO  
LICENSEES

The Commission (with all Commissioners agreeing) approved the subject paper as recorded in the Staff Requirements Memorandum (SRM) of June 7, 2000.

This Record contains a summary of voting on this matter together with the individual vote sheets, views and comments of the Commission.

Annette L. Vietti-Cook  
Secretary of the Commission

Secretary of the Commission

**FROM:** CHAIRMAN MESERVE

**SUBJECT:** SECY-00-0105 - PROPOSED USE OF THE NRC WEB SITE  
TO SATISFY THE STAFF REQUIREMENT TO MAKE  
ENFORCEMENT ACTIONS AVAILABLE TO LICENSEES

Approved   X   Disapproved            Abstain           

Not Participating            Request Discussion           

**COMMENTS:**

I approve the cessation of publication of NUREG-0940, Enforcement Actions: Significant Actions Resolved and approve the utilization of the NRC web site for the dissemination of information on significant enforcement actions. However, if compelling public comments in opposition to the proposal are received, the staff should consult with the Commission again on this issue.

I commend the staff for seeking to find ways to use information technology to serve our stakeholders more effectively and efficiently.

COMMISSIONER DICUS' COMMENTS ON SECY-00-0105

I approve the staff's recommendation to seek public comment on discontinuing the publication of NUREG-0940. If after appropriate consideration and resolution of public comments, the staff still believes it is appropriate to cease publication of NUREG-0940, then the staff should cease publication of NUREG-0940 without seeking further Commission guidance. Should significant comments arise then, as indicated by the staff, additional consultation with the Commission is warranted.

Other organizations, other than the organizations on our distribution list, may benefit from NUREG-0940. The staff should broaden its approach for obtaining public comments. In addition to the notice in the front of the next edition of NUREG-0940, the staff should publish a Federal Register notice announcing the staff's intention to seek public comments on its proposal to discontinue publishing NUREG-0940.

It is also unclear what the staff means by "compelling public comment". The use of the word "compelling" or similar words may stifle public comments. All public comments should be encouraged and the staff's review will determine the merits of and resolution of those comments.

***Cmr. McGaffigan's Comments on SECY-00-0105***

I approve the staff proposal and commend OE's management of the OE Home page. It is clearly regularly updated (it was updated today), and is well organized. As the paper recognizes, the availability of enforcement actions in ADAMS is no substitute for a good web site. I am approving this proposal enthusiastically because of the OE commitment to maintain an OE Home page on which all relevant information is regularly updated. I would not be approving if the proposal had been to rely on ADAMS.

**Commissioner Merrifield's Comments on SECY-00-0105**

Although the cost issues associated with this change (\$20,000 in savings) is not substantial, I believe we should also consider the environmental savings from this effort. By eliminating the paper copies of this report, (2,500 licensees x 847 pages per report) we will be saving over 2 million pages of paper. According to the Wisconsin Paper Council, this is about the same amount necessary to build a 2,000 square foot house. Looked at another way, the amount we are saving in paper is roughly equivalent to 2 acres of mature forested land. As we consider future efforts to move to a paperless office, we should remain mindful of the environmental savings that can result from our actions.

A handwritten signature in black ink, appearing to read "Robert A. Merrifield". The signature is fluid and cursive, with a large, stylized initial "R".
