Supplement 3 to License Amendment Request 00-01, "Administrative Revisions to the Improved Technical Specifications"

Dear Commissioners and Staff:

On March 16, 2000, PG&E submitted License Amendment Request (LAR) 00-01 in PG&E letter DCL-00-041. This LAR requested various changes to correct errors identified during the implementation of the Improved Technical Specifications (ITS) issued in License Amendments 135 and 135 for Units 1 and 2 respectively. On April 11, 2000, and April 19, 2000, PG&E submitted supplements to LAR 00-01 in PG&E Letters DCL-00-056 and DCL-00-060, respectively.

As a result of conversations with the NRC during the review of LAR 00-01, PG&E agreed that two changes proposed in LAR 00-01 required additional justification. These changes are not required for implementation of the ITS. Consequently, to expedite the review of the other changes proposed in LAR 00-01, PG&E withdraws change A.1.m. and the deletion of Surveillance Requirement (SR) 3.3.1.15 from Function 16.a in change A.3.b. PG&E does not intend to pursue change A.1.m., but may pursue the deletion of SR 3.3.1.15 from Function 16.a of TS 3.3.1, Table 3.3.1-1 in a future LAR.

Sincerely,

Lawrence F. Womack
