

June 9, 2000

Mr. William O'Connor, Jr.  
Vice President  
Nuclear Generation  
The Detroit Edison Company  
6400 North Dixie Highway  
Newport, MI 48166

Dear Mr. O'Connor:

This is to notify you of a change from our letter dated March 13, 2000 where we informed you that your staff would develop the Fermi initial licensing examination. Per the telephone discussion between Mr. Michael Bielby and Mr. Kurt Snyder on June 8, 2001, the examination tentatively scheduled during the weeks of June 4 and 11, 2001, will be developed by the NRC.

The NRC will prepare the examinations based on the guidelines in Revision 8, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." Your staff will be given the opportunity to review the examinations the week of May 11, 2001.

To meet the above schedule, it will be necessary for your staff to furnish the reference materials identified in Attachment 2 of ES-201 by November 27, 2000. Any delay in receiving the required reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room and will be available on the NRC Public Electronic Reading Room (PERR) link at the NRC home page, <http://www.nrc.gov/NRC/ADAMS/index.html>.

Thank you for your cooperation in this matter. Mr. Kurt Snyder has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Michael Bielby at 630-829-9762, or me at 630-829-9733.

Sincerely,

*/RA/*
