OSP

Dear Mr. Lohaus;

In accordance with the Guidance for Use by Agreement States for Submitting Regulations for NRC Staff Review, I have enclosed a disk containing the latest proposed regulation amendments, log #NE023, to the Louisiana Administrative Code, Title 33, Part XV, Radiation Protection (In Word 6.0/95 version).

This rule package consists almost entirely of amendments that are required for purposes of compatibility (category A, B, or C). All of the amendments in this package should meet NRC compatibility criteria. Wherever possible, the editor inserted the exact wording of the 10 CFR rules into the amendment, and followed Federal Register guidelines regarding Agreement State compatibility.

Regulations requiring amendments were identified from SA-200, Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements, and SA-201, Review of State Regulations.

- Resolution of Dual Regulation of Airborne Effluents of Radioactive Materials; Clean Air Act, effective date January 9, 1997 (61 FR 65120)
- Recognition of Agreement State Licenses in Areas Under Exclusive Federal Jurisdiction Within an Agreement State, effective date February 27, 1997 (62 FR 1662)
- Radiological Criteria for License Termination, effective date August 20, 1997 (62 FR 39057)
- Deliberate Misconduct by Unlicensed Persons, effective February 12, 1998 (63 FR 1890, 63 FR 13373)
- Minor Corrections, Clarifying Changes, and a Minor Policy Change, effective date October 26, 1998 (63 FR 39477, 63 FR 45393)

Please submit your comments on these regulations no later than July 20, 2000. If you have any questions regarding these regulation amendments, please contact me at (225) 765-0232 or Sharon Parker of my staff at (225)-765-0399, or email [sharonp@deq.state.la.us](mailto:sharonp@deq.state.la.us)

Sincerely,

Robert J. Hannah  
Administrator
