

June 27, 2000

MEMORANDUM TO: Michael E. Mayfield, Director  
Division of Engineering Technology  
Office of Nuclear Regulatory Research

FROM: Martin J. Virgilio, Deputy Director /RA/  
Office of Nuclear Material Safety  
and Safeguards

SUBJECT: RECOMMENDATION FOR PARTICIPATION ON ASME/NQA-1 MAIN  
COMMITTEE AND NOMINATION FOR PARTICIPATION ON  
ASME/NQA-1 SUBCOMMITTEES

In keeping with the objectives of Management Directive 6.5, Nuclear Regulatory Commission (NRC) Participation in the Development and Use of Consensus Standards, I am nominating the following Office of Nuclear Material Safety and Safeguards personnel for participation on the ASME/NQA-1 subcommittees. The individual subcommittee designations are provided in the attachment.

DWM

L. L. Campbell  
T. H. Carter  
C. L. Pittiglio

FCSS

W. R. Smith

SFPO

J. J. Pearson

Since the Office of Nuclear Reactor Regulation has reduced its participation on the ASME/NQA-1 committees, I also recommend that the Office of Nuclear Regulatory Research fill the vacant position on the main committee for ASME/NQA-1. I believe that your office can best represent the broad NRC areas of interest in nuclear quality assurance for both reactor and non-reactor programs on the main committee.

Attachment: NRC NQA Committee Participation chart
