Committee To Review Generic Requirements

SUBJECT: VALUE ADDED TO THE STAFF PROPOSALS REVIEWED
BY THE COMMITTEE TO REVIEW GENERIC REQUIREMENTS
(CRGR) IN THE PAST ONE YEAR

In response to the Staff Requirements Memorandum, dated April 18, 1997, on SECY-97-052, "Committee to Review Generic Requirements (CRGR) - Scope of Review and Periodic Review Activities," this memorandum invites your input regarding CRGR review of the staff proposals sponsored by your office from June 1999 through May 2000. The 1997 SRM directed that:

"...In assessing whether the associated costs are commensurate with the significance of issues raised by the CRGR, staff's summaries or evaluations should be from those stakeholders (i.e., program offices) that have had issues before the CRGR for review, and considers [sic] elements such as: the percentage of original staff proposals that were fundamentally flawed due to technical, procedural, or legal deficiencies, or flawed with respect to policy when presented to the CRGR and the significance of issues raised compared to impact on schedules and resources expended to address those issues. This process should be provided for Commission consideration."

The attachment contains a list of the topics reviewed by the CRGR between June 1, 1999 and May 31, 2000. Specifically, your feedback on the staff proposal sponsored by your office should include the following information:

- (1) Your assessment of the "value added" by the CRGR review (e.g., improvement in the quality of the product from the standpoint of underlying safety concerns and backfit considerations, completeness, and consistency with the Commission's policies, rules, and regulations).
