

May 22, 2000

Mr. R.M Robertson
Project Manager
Flowserve Corporation
Rotating Equipment Division
2300 East Vernon Ave.
Vernon, CA 90058-0017

Dear Mr. Robertson:

This is in response to your letter of May 15, 2000 concerning Flowserve's proposed export of various pumps to the Republic of Korea for use in the Ulchin NPP, Units 5 and 6.

Since the pumps as described in your letter are not "primary coolant pumps" as defined in Appendix A, para. (4), 10 CFR Part 110, they are not subject to the specific export licensing requirements of NRC. Accordingly, they may be exported pursuant to the general license in Section 110.26 of Part 110. Please note that exports under this general license are subject to an annual reporting requirement.

Sincerely,

Marvin R. Peterson, Team Leader (B) */RA/*
Office of International Programs
