

June 13, 2000

Mr. R. P. Powers
Senior Vice President
Nuclear Generation Group
American Electric Power Company
500 Circle Drive
Buchanan, MI 49107-1395

Dear Mr. Powers:

In response to your letter dated March 8, 2000, we have rescheduled your calendar year 2001 initial licensing examinations for your operator license applicants at the D.C. Cook Nuclear Plant. These changes were communicated during a telephone conversation between Mr. R. Brown and Mrs. A. M. Stone on May 25, 2000. The first initial licensing examination is tentatively scheduled during the weeks of May 7 and 14, 2001, with an examination validation visit at your facility the week of April 16, 2001. The second examination is tentatively scheduled during the weeks of August 13 and 20, 2001, with an examination validation visit at your facility the week of July 23, 2001.

A supplementary letter will be sent to the training department approximately 120 days prior to each examination outlining examination security expectations, listing the materials required by the NRC to conduct the examination, reconfirming the examination dates, and reconfirming the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mary Ann Bies of my staff at 630-829-9711.

Sincerely,

/RA/

David E. Hills, Chief
Operations Branch
Division of Reactor Safety

Docket Nos. 50-315; 50-316
