Downers Grove, IL 60515

SUBJECT: QUAD CITIES MEETING TO DISCUSS THE LATEST PLANT PERFORMANCE  
REVIEW AND PERFORMANCE INDICATORS

Dear Mr. Kingsley:

This letter confirms the discussion between myself and R. Krich of your staff to have a management meeting at Quad Cities on Friday, July 14, 2000. The meeting will be at 10:00 a.m. in the Training Building at the Quad Cities site and will be open to the public.

The meeting is to discuss performance at Quad Cities based on our latest plant performance review conducted on May 5, 2000. The results of this review were documented in a letter to you dated May 18, 2000.

We will also discuss the performance indicator for Unit 1 High Pressure Injection System Unavailability. In the first quarter of this year, this indicator became yellow. In the revised reactor oversight process, a yellow performance indicator represents performance that results in definitive required action by the NRC. This meeting will fulfill the annual public meeting and the regulatory performance meeting actions called for in the degraded cornerstone column of the Action Matrix (Exhibit 5 of Inspection Manual Chapter 0305, dated April 24, 2000).

We appreciate your cooperation in this matter. If you have any questions regarding this meeting, please contact M. Ring of my staff at 630/829-9703.

Sincerely,

Original signed by  
Geoffrey E. Grant
