Dear mr Dudley,

Please find below our first email. Concerning time aspects we appreciate if it is possible to have a response within 2 weeks if possible. However this is not critical.

Can You also say something about the high lights of the public comments and a few words about next step for the draft document ? Best regards

Richard Olsson

&gt; Ämne: Draft Final Technical Study SFP Risks at Decom NPPs

&gt;&gt; Dear Mr Dudley,

>> First of all we would like to express our sincere appreciation of the  
 > extensive draft study. It will be used as basis for our national study on  
 > emergency planning for decommissioning NPPs. We are currently working  
 > intensively in order to have a report ready by the end of April and the  
 > NRC draft report has really been a valuable contribution to our work.

&gt;&gt; Moreover we are very grateful for Your kind response to our fax of

&gt; February 25th, where we propose a liaison with the small group working

&gt; with this in Sweden. &gt;&gt; In Sweden a group of SKI consultants has scrutinized Your report, from the

&gt; emergency preparedness point of view, and confirmed SKIs initially very

&gt; positive impressions of the quality and usefulness of Your draft report.

&gt;&gt; We had a meeting with the consultant group yesterday and listed our brief

&gt; and informal comments to Your report. In attached list we have a few

&gt; questions and furthermore some references listed.

&gt;&gt; We would be very grateful if You could oblige us with a response to the

&gt; questions and if it would be possible to obtain the references listed

&gt; (preferably by email, considering the time pressure we have).

&gt;&gt; Your co-operation on this issue would be highly appreciated.

&gt;&gt;&gt; Best regards

&gt;&gt;&gt; Richard Olsson

&gt; Co-ordinator Emergency Preparedness

&gt; SKI
