

June 26, 2000

Dr. Harvey Drucker, Associate Laboratory Director
Energy and Environmental
Science and Technology
Argonne National Laboratory
9700 South Cass Avenue
Argonne, IL 60439-4838

Dear Dr. Drucker:

I would like to express my appreciation for the efforts of your staff in preparing for and conducting technical briefings and laboratory tours of your facilities for myself and NRC Commissioner Merrifield on June 13 and 14, 2000. The technical briefings were well-prepared and informative, and the laboratory tours provided us with a first-hand view of the unique facilities your staff is using to address key technical issues in the regulation of nuclear power. I was impressed with the technical depth of your staff, and particularly impressed with the technical depth and knowledge of the NRC shown by Dr. William Shack in his presentations. Dr. Shack's overview of NRC Sponsored work at ANL showed careful attention to detail and appropriate consideration of the audience. His responses to several questions from Commissioner Merrifield were carefully considered and exhibited a thorough knowledge of both the technical details and the needs of the NRC. Please pass along my appreciation to all of your staff who participated in the briefings and laboratory tour.

Sincerely,

/RA/ by Thomas King Acting For/

Ashok C. Thadani, Director
Office of Nuclear Regulatory Research

cc: Commissioner Merrifield
Y.I Chang, Laboratory Director, Argonne National Laboratory
R.B. Poeppel, Director, Energy Technology Division
A.J. Dvorak, Director, Environmental Assessment Division
