ACMUI members possess the medical and technical skills needed to address evolving issues. Currently, the ACMUI membership consists of the following: a) nuclear medicine physician; b) nuclear cardiologist; c) medical physicist in nuclear medicine unsealed byproduct material; d) health care administrator; e) patients' rights and care advocate; f) Food and Drug Administration representative; and g) state representative. The staff is in the process of finalizing the appointment of nominees for the following positions: a) a therapy physicist; b) a radiation safety officer; c) a nuclear pharmacist; and d) two radiation oncologists.

The NRC is inviting nominations for two existing positions on the ACMUI — a medical physicist with expertise in nuclear medicine unsealed byproduct material and a health care administrator. The term of the individual currently occupying the medical physicist position ends September 30, 2000, and the term of the individual currently occupying the health care administrator position ends September 30, 2001.

Nominees must include four copies of their resumes, describing their educational and professional qualifications, and provide their current addresses and telephone numbers.

Committee members serve a 3-year term, with possible reappointment to an additional 3-year term.

Nominees must be U.S. citizens and be able to devote approximately 80 hours per year to committee business. Members will be compensated and reimbursed for travel (including per-diem in lieu of subsistence) and secretarial and correspondence expenses unless the member is a full-time Federal employee. Full-time Federal employees are only reimbursed for travel expenses. Nominees will undergo a security background check and will be required to complete financial disclosure statements to avoid conflict-of-interest issues.
