MEMORANDUM TO: Distribution

FROM: Edward T. Chow, Acting Section Chief /RA/
Probabilistic Risk Analysis Branch
Division of Risk Analysis and Applications
Office of Nuclear Regulatory Research

SUBJECT: IPEEE SENIOR REVIEW BOARD MEETING, JULY 12-13, 2000
(REVISED AGENDA)

On June 5, 2000, you were sent a memo announcing the next IPEEE Senior Review Board meeting to discuss seismic and high winds, floods, transportation and other external events (HFO) for a number of plants identified in the memo. The purpose of the meeting is to discuss the licensees' responses to the staff's requests for additional information (RAIs) in these areas of review. The licensee for Oyster Creek has recently informed us that they will be unable to keep the planned schedule for supplying RAI responses in the HFO areas for Oyster Creek. In light of this, attached is a revised SRB meeting schedule to reflect the removal of the Oyster Creek HFO discussion. Again, the meeting will be held in **Conference Room T-10A1, (Two White Flint North) on July 12th and 13th.**

If you have any questions about the meeting, please call me at (301) 415-6571.
